## Introduction

This report explores the potential energies available for you in any particular location in the world. The report has evolved from a technique called astro-mapping, which overlays your chart on a map of the world using various methods. This overlay means that certain planets will be stronger in particular geographical areas. Through interpreting these planetary energies we can have an astrological map that tells us the best place to apply for promotions, to go on holidays, to meet lovers, and to live more fulfilled lives in the areas that are important to us.

The different lines listed in this report include Planet/Angle lines also referred to as Astro\*Carto\*Graphy and Planet Direction lines also referred to as Local Space lines.

Planet/Angle Lines describe where on the Earth individual planets or stars are culminating or anticulminating (or on the Midheaven and Imum Coeli) or are rising or setting (or on the Ascendant or Descendant). The Culminate/Anticulminate and MC/IC lines are always lines of longitude, whereas the rising/setting and Asc/Dsc lines are great circles around the globe and appear to curve on a map viewed in Cartesian or Mercator projection.

Planet Direction or Local Space Lines indicate the direction in which planets or stars are found when looking from the chart's location. These lines are great circles around the globe, starting from the chart's location. The common convention is to continue the line right around the world, back to the starting location. When viewed in Cartesian or Mercator projection, these lines generally appear to curve.

Let the explorations begin.

## Planets On Angles

### *The Sun - Culminating (Orb 0°19') - Strong Influence*

This is an ideal place for advancement in your professional goals. If you want to take the focus away from your private life and place it on achieving your career ambitions then this location is beneficial. Here you are able to make the right connections to move forward in your chosen profession or to achieve a lifetime ambition. Job applications and promotions, marketing efforts, business associates, and business meetings should all prove successful under the influence of the Sun on this line. You have the ability to really shine in the world. You can experience some drawbacks when moving along this line. For instance this location is not ideal if you want to settle down and start a family or if you want to spend more time with home and family unless this happens to be your major life ambition. You need to ensure that you keep your ambitions in check. You could be in for some disappointments if you are pursuing your ambitions to the exclusion of all else, or socialising only for the sake of self-advancement. However, if you maintain an appropriate balance in your life, you should be able focus on your goals and perhaps even achieve your life's purpose.

### *Chiron - Setting (Orb 1°15') - Strong Influence*

This place can help you gain new insights regarding your relationships with other people, particularly your marriage. Your memory of childhood events may sharpen and your dreams may revolve childhood places and loved ones. These are gifts, paving the way to a greater understanding of your present-day unions. It is possible that a romance blossoms here, helping you to experience intimacy as never before. This healing relationship brings a new lease of life. You may also meet a significant teacher here, someone who inspires you to follow your highest aspirations. Traversing this line can be a joyous experience. However, it can also be painful, particularly if your memories are sad. In some cases it also possible that your spouse or a significant person causes you further upset. If this is the case then you need to trust that this experience will help you gain greater wisdom and understanding, both of yourself and of your needs in a marriage. Your experiences are asking that you to delve into painful experiences from your past in order that you may move forward in a more honest and intimate fashion in your most personal relationships now. Therefore it is important that you allow plenty of time for reflection. Orthodox and alternative healing modalities may be helpful. You may also benefit from simply relaxing with your spouse, or communing with nature. Treat yourself and others kindly and your lessons are likely to change your life.

### *Pluto - Setting (Orb 5°17') - Medium Influence*

This is a powerful location for your most significant personal and business unions. If you are married, then your marital bond intensifies when moving to this line. This can be positive if you and your partner are open to the challenge of transformation. An almost brutal honesty will be required to alter the areas of

the relationship that have fallen into an outworn pattern. If you face the challenge then you are likely to experience a greater level of intimacy and commitment, gaining a greater understanding of each other and the nature of your relationship. You forge a strong bond. However, if either you or your spouse is unable to embrace the adjustments required your union may end. If you are single then it is possible that you will meet someone here who changes your life forever. Again this can be a rewarding experience or a painful one. Either way it is powerful. It could be that the impetus for travelling along this line comes from a partner, business or personal. If you are not already in an intimate relationship, you may find yourself drawn into a dramatic and unusual one. Beware of attracting destructive partnerships. Business deals are also highlighted in this location. Trade agreements, business partnerships, and commercial contracts need to come under close scrutiny before you proceed. You need to make sure that you and your business associates fully understand the nature of the agreement before signing on the dotted line. You would also be wise to do a thorough check of potential partners background. The challenge of traversing this line is that you are vulnerable to other people's lack of integrity. Therefore betrayal, either in your most personal unions or your business joint ventures, is a distinct possibility. However, the joy of traversing this line is that you could meet powerful allies who change the course of your life enriching it in ways you never dreamed possible.

#### ***Uranus - Rising (Orb 7°10') - Weak Influence***

This is a positive line to traverse if you are seeking more excitement and change in your life. Perhaps you have felt that life has become too staid and you are eager to break out of your routine. You may be eager to break free of other people's expectations or to shake the fetters of your own responsibilities. This can be an exciting line to follow, as you will be open to new and unique experiences. Magic happens. You are likely to become more independent, surprising yourself and others. You are able to break out of old patterns and embrace new ways of expressing yourself. This may even involve a change of appearance. Expression of your individuality is a key factor along this line. There may be times when you feel that life is getting a little out of control, but generally you will enjoy the roller coaster ride. Woe betides anyone who tries to quell your excitement, as you will rebel. As well as your own right to individual expressions, you may even find yourself becoming more involved in the area of human rights, perhaps taking on the role of spokesperson for a group or cause. On the other hand if you seek stability in your life then you would do well to avoid this location. Perhaps you enjoy a more conservative approach to life and prefer routine rather than the unpredictable. If this is the case then you are likely to be uncomfortable with the challenges of this life. Either way you are likely to gain insights about yourself and your loved ones when spending any time in this location.

#### ***The North Node - Rising (Orb 8°20') - Weak Influence***

Moving along this line can change the course of your life. People you meet and

events that take place are likely to change the way that you think and feel about yourself, thus affecting decisions for the future. Hence the direction of your life changes. You experience a real sense of doors opening and closing. Business and personal relationships also play an important role along this line. You are destined to meet individuals or groups of people who deeply affect your sense of self. Ultimately these people will teach you important life lessons, even if the path is a little rocky. Self-development groups, or spiritual groups which enable you to discover more about yourself, may play a major role under this influence. In some cases you may be required to let go of relationships with people who have held you back in the past, or simply because the relationship was destined to end. You can take comfort from the thought that this line is strongly linked with destiny.

## Planet Direction Lines

### *The Sun - Direction (Orb 0°21') - Strong Influence*

Your Sun line will have a generally positive affect in your life. If you have felt that you have been unable to fully express your personality then the Sun line will be advantageous. The energies of this line will help you assert your personality traits and achieve your personal goals. You will shine more in your own life thanks to experiences and associations formed along this line. You are able to clarify your own goals and the steps needed to achieve them. As a result you are able to more easily advance in life. You also seem to naturally assert yourself with others. It is also possible that positive male friends or family members move to locations along this line providing you with the opportunity to make connections.

There is a chance that you may become somewhat grandiose and overly confident at locations along the Sun line. Therefore it is important you ensure that you are aiming for positive outcomes rather than seeking to exploit opportunities or people when travelling to locations along this line. You need to also generously embrace those who assist you in achieving your ambitions rather than disregarding their contribution. This will help ensure that your journey is a positive one with favorable consequences.
